

IN THE UNITED STATES DISTRICT COURT  
FOR THE WESTERN DISTRICT OF PENNSYLVANIA

KAREN CLARK,

Plaintiff,

v.

SHOPRUNNER, INC.,

Defendant.

Civil Action No. 1:19-cv-129

COMPLAINT FOR DECLARATORY  
AND INJUNCTIVE RELIEF

**COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF**

Karen Clark, by and through undersigned counsel, seeks a permanent injunction requiring a change in ShopRunner, Inc.’s (“Defendant” or “ShopRunner”) corporate policies to cause its website to become, and remain, accessible to individuals with visual disabilities. In support thereof, Plaintiff respectfully asserts as follows:

**INTRODUCTION**

1. In a September 25, 2018 letter to U.S. House of Representative Ted Budd, U.S. Department of Justice Assistant Attorney General Stephen E. Boyd confirmed that public accommodations must make the websites they own, operate, or control equally accessible to individuals with disabilities. Assistant Attorney General Boyd’s letter provides:

The Department [of Justice] first articulated its interpretation that the ADA applies to public accommodations’ websites over 20 years ago. This interpretation is consistent with the ADA’s title III requirement that the goods, services, privileges, or activities provided by places of public accommodation be equally accessible to people with disabilities.

*See* Letter from Assistant Attorney General Stephen E. Boyd, U.S. Department of Justice, to Congressman Ted Budd, U.S. House of Representatives (Sept. 25, 2018) (available at

<https://images.cutimes.com/contrib/content/uploads/documents/413/152136/adaletter.pdf> (last accessed April 17, 2019).

2. Plaintiff Karen Clark is totally blind. Two weeks after Ms. Clark's twelfth birthday, she was hit by a car. Both of Ms. Clark's optic nerves detached in the accident, and she has been completely blind ever since. Ms. Clark uses VoiceOver for her iPhone 8 and JAWS to navigate the internet.

3. Screen reader "software translates the visual internet into an auditory equivalent. At a rapid pace, the software reads the content of a webpage to the user." *Andrews v. Blick Art Materials, LLC*, 17-CV-767, 2017 WL 6542466, at \*6 (E.D.N.Y. Dec. 21, 2017) (J. Weinstein).

The screen reading software uses auditory cues to allow a visually impaired user to effectively use websites. For example, when using the visual internet, a seeing user learns that a link may be "clicked," which will bring her to another webpage, through visual cues, such as a change in the color of the text (often text is turned from black to blue). When the sighted user's cursor hovers over the link, it changes from an arrow symbol to a hand.

The screen reading software uses auditory—rather than visual—cues to relay this same information. When a sight impaired individual reaches a link that may be "clicked on," the software reads the link to the user, and after reading the text of the link says the word "clickable."...Through a series of auditory cues read aloud by the screen reader, the visually impaired user can navigate a website by listening and responding with her keyboard.

*Id.* at \*6-7. See American Foundation for the Blind, *Screen Readers*, available at <https://www.afb.org/node/16207/screen-readers> (last accessed April 17, 2019) (discussing screen readers and how they work).

4. Defendant is an online retailer that sells memberships which allow members to get everything from designer jeans to digital cameras from over 100 online stores. Members enjoy benefits like unlimited free 2-day shipping, free return shipping, and member-only deals. See About Us, available at <https://shoprunner.com/about/> (last accessed April 17, 2019).

5. Consumers may purchase products from Defendant's retail partners and access other brand-related content and services at [www.shoprunner.com](http://www.shoprunner.com) ("Website"), the website Defendant owns, operates, and controls. *See ShopRunner, Terms of Service, available at <https://shoprunner.com/tos/terms>* (last accessed April 17, 2019).

6. In addition to researching and purchasing Defendant's products and membership services from the comfort and convenience of their homes, consumers may also use Defendant's Website to contact customer service by phone and email, review important legal notices like Defendant's Privacy Policy and Terms and Conditions, track online orders, arrange delivery, and more.

7. Defendant is responsible for the policies, practices, and procedures concerning the Website's development and maintenance.

8. Unfortunately, Defendant denies approximately 8.1 million Americans who have difficulty seeing access to its Website's goods, content, and services because the Website is largely incompatible with the screen reader programs these Americans use to navigate an increasingly ecommerce world. *See Press Release, United States Census Bureau, Nearly 1 in 5 People Have a Disability in the U.S., Census Bureau Reports Report Released to Coincide with 22<sup>nd</sup> Anniversary of the ADA* (Jul. 25, 2012), available at <https://www.census.gov/newsroom/releases/archives/miscellaneous/cb12-134.html> (last accessed April 17, 2019) ("About 8.1 million people had difficulty seeing, including 2.0 million who were blind or unable to see.").

9. Plaintiff brings this civil rights action against Defendant to enforce Title III of the Americans with Disabilities Act, [42 U.S.C. § 12101 et seq.](#) ("Title III"), which requires, among other things, that a public accommodation (1) not deny persons with disabilities the benefits of

its services, facilities, privileges and advantages; (2) provide such persons with benefits that are equal to those provided to nondisabled persons; (3) provide auxiliary aids and services—including electronic services for use with a computer screen reading program—where necessary to ensure effective communication with individuals with a visual disability, and to ensure that such persons are not excluded, denied services, segregated or otherwise treated differently than sighted individuals; and (4) utilize administrative methods, practices, and policies that provide persons with disabilities equal access to online content.

10. By failing to make its Website available in a manner compatible with computer screen reader programs, Defendant, a public accommodation subject to Title III, deprives blind and visually-impaired individuals the benefits of its online goods, content, and services—all benefits it affords nondisabled individuals—thereby increasing the sense of isolation and stigma among these Americans that Title III was meant to redress.

11. Because Defendant's Website is not and has never been accessible, and because upon information and belief Defendant does not have, and has never had, an adequate corporate policy that is reasonably calculated to cause its Website to become and remain accessible, Plaintiff invokes [42 U.S.C. § 12188\(a\)\(2\)](#) and seek a permanent injunction requiring that:

- a) Defendant retain a qualified consultant acceptable to Plaintiff (“Web Accessibility Consultant”) who shall assist it in improving the accessibility of its Website, including all third-party content and plug-ins, so the goods and services on the Website may be equally accessed and enjoyed by individuals with vision related disabilities;
- b) Defendant work with the Web Accessibility Consultant to ensure that all employees involved in website and content development be given web accessibility training on a biennial basis, including onsite training to create accessible content at the design and development stages;
- c) Defendant work with the Web Accessibility Consultant to perform an automated accessibility audit on a periodic basis to evaluate whether Defendant's Website may be equally accessed and enjoyed by individuals with vision related disabilities on an ongoing basis;

- d) Defendant work with the Web Accessibility Consultant to perform end-user accessibility/usability testing on at least a quarterly basis with said testing to be performed by humans who are blind or have low vision, or who have training and experience in the manner in which persons who are blind use a screen reader to navigate, browse, and conduct business on websites, in addition to the testing, if applicable, that is performed using semi-automated tools;
- e) Defendant incorporate all of the Web Accessibility Consultant's recommendations within sixty (60) days of receiving the recommendations;
- f) Defendant work with the Web Accessibility Consultant to create a Web Accessibility Policy that will be posted on its Website, along with an e-mail address, instant messenger, and toll-free phone number to report accessibility-related problems;
- g) Defendant directly link from the footer on each page of the Website, a statement that indicates that Defendant is making efforts to maintain and increase the accessibility of its Website to ensure that persons with disabilities have full and equal enjoyment of the goods, services, facilities, privileges, advantages, and accommodations of the Defendant through the Website;
- h) Defendant accompany the public policy statement with an accessible means of submitting accessibility questions and problems, including an accessible form to submit feedback or an email address to contact representatives knowledgeable about the Web Accessibility Policy;
- i) Defendant provide a notice, prominently and directly linked from the footer on each page of the Website, soliciting feedback from visitors to the Website on how the accessibility of the Website can be improved. The link shall provide a method to provide feedback, including an accessible form to submit feedback or an email address to contact representatives knowledgeable about the Web Accessibility Policy;
- j) Defendant provide a copy of the Web Accessibility Policy to all web content personnel, contractors responsible for web content, and Client Service Operations call center agents ("CSO Personnel") for the Website;
- k) Defendant train no fewer than three of its CSO Personnel to automatically escalate calls from users with disabilities who encounter difficulties using the Website. Defendant shall have trained no fewer than three of its CSO personnel to timely assist such users with disabilities within CSO published hours of operation. Defendant shall establish procedures for promptly directing requests for assistance to such personnel including notifying the public that customer assistance is available to users with disabilities and describing the process to obtain that assistance;

- 1) Defendant modify existing bug fix policies, practices, and procedures to include the elimination of bugs that cause the Website to be inaccessible to users of screen reader technology;
- m) Plaintiff, her counsel and their experts monitor the Website for up to two (2) years after the Mutually Agreed Upon Consultant validates the Website are free of accessibility errors/violations to ensure Defendant has adopted and implemented adequate accessibility policies. To this end, Plaintiff, through her counsel and their experts, shall be entitled to consult with the Web Accessibility Consultant at their discretion, and to review any written material, including but not limited to any recommendations the Website Accessibility Consultant provides Defendant.

12. Web-based technologies have features and content that are modified on a daily, and in some instances an hourly, basis, and a one time “fix” to an inaccessible website will not cause the website to remain accessible without a corresponding change in corporate policies related to those web-based technologies. To evaluate whether an inaccessible website has been rendered accessible, and whether corporate policies related to web-based technologies have been changed in a meaningful manner that will cause the website to remain accessible, the website must be reviewed on a periodic basis using both automated accessibility screening tools and end user testing by disabled individuals.

#### **JURISDICTION AND VENUE**

13. The claims alleged arise under Title III such that this Court’s jurisdiction is invoked pursuant to [28 U.S.C. § 1331](#) and [42 U.S.C. § 12188](#).

14. Defendant attempts to, and indeed does so, participate in the Commonwealth’s economic life by clearly performing business over the Internet. Through its Website, Defendant enters into contracts for the sale of its memberships with residents of Pennsylvania. These online sales contracts involve, and indeed require, Defendant’s knowing and repeated transmission of computer files over the Internet. *See Access Now Inc. v. Otter Products, LLC*, 280 F.Supp.3d 287 (D. Mass. Dec. 4, 2017) (exercising personal jurisdiction over forum plaintiff’s website

accessibility claims against out-of-forum website operator); *Access Now, Inc. v. Sportswear, Inc.*, 298 F.Supp.3d 296 (D. Mass. 2018) (same).

15. Defendant's participation in the Commonwealth hinges, in significant part, on Pennsylvania consumers, like Plaintiff Clark, accessing its Website and purchasing Defendant's products and services. Unlike, for example, a winery that cannot sell and ship wine to consumers in certain states, Defendant purposefully avails itself of the benefits and advantages of operating an online business open 24 hours a day, 7 days a week, 365 days per year to Pennsylvania residents.

16. As described in additional detail below, Plaintiff was injured when she attempted to access Defendant's Website from her home in Meadville, Pennsylvania, but encountered barriers that denied her full and equal access to Defendant's online services.

17. Venue in this District is proper under 28 U.S.C. § 1391(b)(2) because this is the judicial district in which a substantial part of the acts and omissions giving rise to Plaintiff's claims occurred.

### **PARTIES**

18. Plaintiff Clark is and, at all times relevant hereto, has been a resident of Crawford County, Pennsylvania. Plaintiff is and, at all times relevant hereto, has been legally blind and is therefore a member of a protected class under the ADA, 42 U.S.C. § 12102(2) and the regulations implementing the ADA set forth at 28 CFR §§ 36.101 *et seq.*

19. Defendant is a Delaware corporation with its principle place of business at 350 North LaSalle, Suite 600, Chicago, Illinois 60654.

///

///

## **FACTS APPLICABLE TO ALL CLAIMS**

20. While the increasing pervasiveness of digital information presents an unprecedented opportunity to increase access to goods, content, and services for people with perceptual or motor disabilities, website developers and web content developers often implement digital technologies without regard to whether those technologies can be accessed by individuals with disabilities. This is notwithstanding the fact that accessible technology is both readily available and cost effective.

### **DEFENDANT'S ONLINE CONTENT**

21. Defendant's Website allows consumers to research and purchase Defendant's membership services and products from retail partners from the comfort and convenience of their own homes, and arrange for home delivery.

22. The Website also enables consumers to contact customer service by phone and instant messenger, review important legal notices like Defendant's Privacy Policy and Terms and Conditions, review membership terms, and more.

### **HARM TO PLAINTIFF**

23. Plaintiff attempted to access the Website from her home in Meadville, Pennsylvania. Unfortunately, because of Defendant's failure to build its Website in a manner that is compatible with screen reader programs, Plaintiff is unable to understand, and thus is denied the benefit of, much of the content and services she wishes to access on the Website.

24. Plaintiff attempted to access the Website using VoiceOver, combined with JAWS.

25. VoiceOver is "a full-featured screen reader built into macOS that speaks the text in documents and windows, and describes aloud what appears on your screen...With VoiceOver, you control your Mac primarily with a keyboard, refreshable braille display, or trackpad. You use the VoiceOver cursor—which appears as a dark rectangular outline—to move around the

screen, select buttons and other controls, and to read and edit text.” See Apple, VoiceOver Getting Started Guide, available at <https://help.apple.com/voiceover/info/guide/10.12/#/vo2681> (last accessed April 17, 2019).

*The VoiceOver cursor—a dark rectangular outline—focused on the word "Accessibility" on screen.*

This caption matches the alternative text that Apple provides in its VoiceOver Getting Started Guide. It illustrates the type of sufficiently descriptive alternative text that screen reader users require to fully and equally access Defendant’s Website.

26. JAWS (Job Access with Speech) is a computer screen reader program for Microsoft Windows that allows blind and visually impaired users to read the screen wither with a text-to-speech output or by a refreshable Braille display. JAWS is the most popular screen reading technology (JAWS) currently on the market. JAWS reads to the user the content of the website as they navigate it with arrows.

27. Unfortunately, as a result of visiting Defendant’s Website from Meadville, Pennsylvania, and from investigations performed on her behalf, Plaintiff found Defendant’s

Website to be largely unusable due to various barriers that denies her full and equal access to Defendant's online content and services. For example:

a. Defendant's Website features links to its retail partners which are inaccessible to the visually impaired. There are a large number of stores that are required to be broken into logical sections to make it easier to read. In this case, ShopRunner grouped all stores alphabetically. There is an accessibility issue with the listing of retail stores, and links to those stores, because the contrast for these groupings do not meet the minimum, required contrast ratio of at least 4.5:1. This results in users who are visually impaired not being able to access the retail listings. This is found at <https://www.shoprunner.com/stores/> (last accessed April 2, 2019), and is demonstrated below:

b. Defendant's Website features functions which are inaccessible to screen reader users because they are missing labels. For example, several fields, such as the email field in the password log-in, are missing labels. The result is that the screen reader users will not know what to enter if a field is missing a label. This effectively bars screen reader users from accessing Defendant's membership product. An example of this can be found at

[https://shoprunner.com/partners/accounts/password\\_reset/](https://shoprunner.com/partners/accounts/password_reset/) (last accessed April 2, 2019), and is demonstrated below:

28. These barriers, and others, deny Plaintiff full and equal access to all of the services the Website offers, and now deters her from attempting to use the Website. Still, Plaintiff would like to, and intends to, attempt to access the Website in the future to research the products and services the Website offers, or to test the Website for compliance with the ADA.

29. If the Website was accessible, *i.e.* if Defendant removed the access barriers described above, Plaintiff could independently research and purchase Defendant's membership and retail partner products and access its other online content and services.

30. Though Defendant may have centralized policies regarding the maintenance and operation of its Website, Defendant has never had a plan or policy that is reasonably calculated to make its Website fully accessible to, and independently usable by, individuals with vision related disabilities. As a result, the complained of access barriers are permanent in nature and likely to persist.

31. The law requires that Defendant reasonably accommodate Plaintiff's disabilities by removing these existing access barriers. Removal of the barriers identified above is readily achievable and may be carried out without much difficulty or expense.

32. Plaintiff has been, and in the absence of an injunction will continue to be, injured by Defendant's failure to provide its online content and services in a manner that is compatible with screen reader technology.

#### **DEFENDANT'S KNOWLEDGE OF WEBSITE ACCESSIBILITY REQUIREMENTS**

33. Defendant has long known that screen reader technology is necessary for individuals with visual disabilities to access its online content and services, and that it is legally responsible for providing the same in a manner that is compatible with these auxiliary aids.

34. Indeed, the "Department [of Justice] first articulated its interpretation that the ADA applies to public accommodations' websites over 20 years ago." As described above, on September 25, 2018, Assistant Attorney General Stephen E. Boyd confirmed nothing about the ADA, nor the Department's enforcement of it, has changed this interpretation.

#### **THE PARTIES HAVE NO ADMINISTRATIVE REMEDIES TO PURSUE**

35. There is no DOJ administrative proceeding that could provide Plaintiff with Title III injunctive relief.

36. While the DOJ has rulemaking authority and can bring enforcement actions in court, Congress has not authorized it to provide an adjudicative administrative process to provide Plaintiff with relief.

37. Plaintiff alleges violations of existing and longstanding statutory and regulatory requirements to provide auxiliary aids or services necessary to ensure effective communication, and courts routinely decide these types of effective communication matters.

38. Resolution of Plaintiff's claims does not require the Court to unravel intricate, technical facts, but rather involves consideration of facts within the conventional competence of the courts, *e.g.* (a) whether Defendant offers content and services on its Website, and (b) whether Plaintiff can access the content and services.

## SUBSTANTIVE VIOLATION

### **Title III of the ADA, 42 U.S.C. § 12181 *et seq.***

39. The assertions contained in the previous paragraphs are incorporated by reference.

40. Defendant's Website is a place of public accommodation within the definition of Title III of the ADA, [42 U.S.C. § 12181\(7\)](#). *See Otter Products*, 280 F.Supp.3d 293, n.4 (“Several courts have held that a website can be treated as a public accommodation under Title III of the ADA.”); *see also* [1-800 Flowers.com](#), 2018 WL 839381, \*1 (“Defendant does not dispute that its websites are places of public accommodation subject to regulation by Title III of the ADA.”).

41. In the broadest terms, the ADA prohibits discrimination on the basis of a disability in the full and equal enjoyment of goods and services of any place of public accommodation. [42 U.S.C. § 12182\(a\)](#). Thus, to the extent Defendant does not provide Plaintiff with full and equal access to its Website, it has violated the ADA.

42. In more specific terms, Title III of the ADA imposes statutory and regulatory requirements to ensure persons with disabilities are not excluded, denied services, segregated or otherwise treated differently than other individuals as a result of the absence of auxiliary aids and services. [42 U.S.C. § 12182\(b\)\(2\)\(A\)](#); [28 C.F.R. §§ 36.303\(a\), \(c\)](#). Under these provisions, public accommodations must furnish appropriate auxiliary aids and services that comply with their effective communication obligations. *Id.* [28 C.F.R. §§ 36.303\(a\), \(c\)](#). Under these provisions, public accommodations must furnish appropriate auxiliary aids and services that comply with their effective communication obligations. *Id.*

43. Auxiliary aids and services are necessary when their absence effectively excludes an individual from participating in or benefiting from a service, or fails to provide a like experience to the disabled person.

44. Auxiliary aids and services include, but are not limited to, audio recordings, screen reader software, magnification software, optical readers, secondary auditory programs, large print materials, accessible electronic and information technology, other effective methods of making visually delivered materials available to individuals who are blind or have low vision, and other similar services and actions. 28 C.F.R. §§ 36.303(b)(2), (4).

45. In order to be effective, auxiliary aids and services must be provided in accessible formats, in a timely manner, and in such a way as to protect the privacy and independence of the individual with a disability. 28 C.F.R. §§ 36.303(c)(1)(ii). To this end, the Ninth Circuit has explained, “assistive technology is not frozen in time: as technology advances, [ ] accommodations should advance as well.” *Enyart v. Nat'l Conference of Bar Examiners, Inc.*, 630 F.3d 1153, 1163 (9th Cir. 2011).

46. By failing to provide its Website’s content and services in a manner that is compatible with auxiliary aids, Defendant has engaged, directly, or through contractual, licensing, or other arrangements, in illegal disability discrimination, as defined by Title III, including without limitation:

- (a) denying individuals with visual disabilities opportunities to participate in and benefit from the goods, content, and services available on its Website;
- (b) affording individuals with visual disabilities access to its Website that is not equal to, or effective as, that afforded others;
- (c) utilizing methods of administration that (i) have the effect of discriminating on the basis of disability; or (ii) perpetuate the discrimination of others who are subject to common administrative control;

(d) denying individuals with visual disabilities effective communication, thereby excluding or otherwise treating them differently than others; and/or

(e) failing to make reasonable modifications in policies, practices, or procedures where necessary to afford its services, privileges, advantages, or accommodations to individuals with visual disabilities.

47. Defendant has violated Title III by, without limitation, failing to make its Website's services accessible by screen reader programs, thereby denying individuals with visual disabilities the benefits of the Website, providing them with benefits that are not equal to those it provides others, and denying them effective communication.

48. Defendant has further violated Title III by, without limitation, utilizing administrative methods, practices, and policies that allow its Website to be made available without consideration of consumers who can only access the company's online goods, content, and services with screen reader programs.

49. Making its online goods, content, and services compatible with screen readers does not change the content of Defendant's Website or result in making the Website different, but enables individuals with visual disabilities to access the Website Defendant already provides.

50. Defendant's ongoing violations of Title III have caused, and in the absence of an injunction will continue to cause, harm to Plaintiff and other individuals with visual disabilities.

51. Plaintiff's claims are warranted by existing law or by non-frivolous argument for extending, modifying, or reversing existing law or for establishing new law.

52. Pursuant to [42 U.S.C. § 12188](#) and the remedies, procedures and rights set forth and incorporated therein, Plaintiff requests relief as set forth below.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiff prays for:

(A) A Declaratory Judgment that at the commencement of this action Defendant was in violation of the specific requirements of Title III of the ADA described above, and the relevant implementing regulations of the ADA, in that Defendant took no action that was reasonably calculated to ensure that its Website is fully accessible to, and independently usable by, individuals with visual disabilities;

(B) A permanent injunction pursuant to [42 U.S.C. § 12188\(a\)\(2\)](#) and [28 CFR § 36.504\(a\)](#) which directs Defendant to take all steps necessary to bring its Website into full compliance with the requirements set forth in the ADA, and its implementing regulations, so that its Website is fully accessible to, and independently usable by, blind individuals, and which further directs that the Court shall retain jurisdiction for a period to be determined to ensure that Defendant has adopted and is following an institutional policy that will in fact cause it to remain fully in compliance with the law—the specific injunctive relief Plaintiff requests is described more fully in paragraph 11 above.

(C) Payment of actual, statutory, and punitive damages, as the Court deems proper;

(D) Payment of costs of suit;

(E) Payment of reasonable attorneys' fees, pursuant to [42 U.S.C. § 12205](#) and [28 CFR § 36.505](#), including costs of monitoring Defendant's compliance with the judgment (*see Access Now, Inc. v. Lax World, LLC*, No. 1:17-cv-10976-DJC (D. Mass. Apr. 17, 2018) (ECF 11) (“Plaintiffs, as the prevailing party, may file a fee petition before the Court surrenders jurisdiction. Pursuant to *Pennsylvania v. Delaware Valley Citizens' Council for Clean Air*, 478 U.S. 546, 559 (1986), supplemented, 483 U.S. 711 (1987), and *Garrity v. Sununu*, 752 F.2d 727,

738-39 (1st Cir. 1984), the fee petition may include costs to monitor Defendant's compliance with the permanent injunction."); *see also Gniewkowski v. Lettuce Entertain You Enterprises, Inc.*, Case No. 2:16-cv-01898-AJS (W.D. Pa. Jan. 11, 2018) (ECF 191) (same);

(F) Whatever other relief the Court deems just, equitable and appropriate; and  
(G) An Order retaining jurisdiction over this case until Defendant has complied with the Court's Orders.

Dated: May 2, 2019
